Community Initiative Programme EQUAL is cofinanced by European Social Fund and by the state budget of the Czech Republic.

“Equal – Free movement of good ideas”

The Community Initiative Programme EQUAL (CIP EQUAL), co-financed from the European Social Fund, is one of the instruments aimed at contributing to the fulfilment of the European Employment Strategy. CIP EQUAL supports trans-national cooperation when developing and disseminating new ways of combating discrimination in the labour market throughout the EU. The aim of the Initiative is to develop instruments to support members of disadvantaged groups, who are facing discrimination either in the workplace or while looking for a job.

Presently CIP EQUAL projects, which will be winding down their activities in the course of 2008, are approaching their final phase. Many of them have already finished development and testing of their “products” and now it is the time to share their successful stories with others.

If you are interested in discovering how the innovative solutions can help disadvantaged groups, please accept our invitation to the annual conference and learn more about what the projects have to offer. At the conference, you will also be presented with interesting examples of sound cooperation among projects, experts and representatives of the public sector within the national thematic networks. Further information about CIP EQUAL may be found at www.equalcr.cz.
